What This Is | Current Authority | Throughput | Quickstart & License | Go Next

WHAT THIS IS

What This Is

ZPE-XR is a private-stage package candidate for an XR hand-stream codec and evaluation harness. This repository (main branch) is the canonical ZPE-XR workstream; any other repos or forks are non-authoritative drift. The repo is buildable and inspectable, but it is not a public release and it does not claim device runtime closure.

EVIDENCE AND CLAIMS

Current Authority (2026-03-21)

Surface	Locked Value	Evidence
Phase 5 ContactPose multi-sequence	See Current Metrics table below.	`proofs/artifacts/2026-03-21_zpe_xr_phase5_multi_sequence_161900Z/phase5_multi_sequence_bench`
Release verdict	`PRIVATE_ONLY`, `NOT_READY_FOR_PUBLIC_RELEASE`	`proofs/RELEASE_READINESS_REPORT.md`
Package mechanics	Version `0.3.0`, Rust-backed wheel validated, `twine check` PASS	`release_readiness.json`
Cold-start audit	PASS, Comet logging disabled (key null)	`proofs/artifacts/2026-03-21_zpe_xr_phase4_cold_start/phase4_cold_start_audit.json`

THROUGHPUT

Current Metrics (Phase 5 ContactPose)

Metric	Value	Notes
Compression vs raw	`56.144x`	Mean across five ContactPose sequences.
MPJPE	`0.479 mm`	Mean fidelity on ContactPose.
Encode+decode latency	`0.026 ms`	Mean per-frame combined latency.
Pose error at 10% loss	`0.399%`	Mean packet-loss resilience.
Modern comparator gate	`0/5`	Gate failed; blocks public release decision.

OUT OF SCOPE

Status and Gaps

Area	Gap	Impact
Public release	Modern comparator gate failed (`0/5`).	Blocks public release.
Runtime closure	`XR-C007` remains `PAUSED_EXTERNAL`.	Blocks runtime-closure claims.
Comparator displacement	Photon displacement open (secondary).	No incumbent displacement claim.
Exact PRD corpus	Exact PRD corpus unresolved.	Limits corpus claims.

QUICK START

Acquisition Surface (Private/Internal Only)

Private/internal only. Not on PyPI. Supported install: local checkout:

```
python -m venv .venv
source .venv/bin/activate
python -m pip install "./code[dev]"
python ./executable/verify.py
```

Optional test replay:

```
python -m pytest ./code/tests -q
```

WHERE TO GO
